

Otolaryngology

Delineation of Privileges

Applicant Information

Full Name:

Date of Birth:

Home Address:

Life Number (if available):

Please check the box beside each clinical privilege being requested. Applicants are required to produce information deemed necessary by the center in order to properly evaluate current competence, current clinical activity, and other privileging requirements.

Otolaryngology (Core Privileges)			
Qualifications			
Education & Training:	Successful completion of an Accreditation Council for Graduate Medical Education (ACGME) or American Osteopathic Association (AOA) accredited residency in otolaryngology; OR An equivalent as set forth in the Medical Staff Bylaws.		
Certification:	Current certification or board eligible with achievement of certification within 5 years of completing formal training leading to certification in otolaryngology by the American Board of Otolaryngology, the American Osteopathic Board of Ophthalmology and Otolaryngology - Head and Neck Surgery; OR An equivalent as set forth in the Medical Staff Bylaws. Maintenance of Certification is required unless a provider is legacy (grandfathered) as set forth in the Medical Staff Bylaws.		
New Privilege:	Demonstrated current competence with evidence of at least 25 otolaryngology surgeries within the past 12 months that are reflective of the scope of privileges requested; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least 75 otolaryngology surgeries within the past 36 months that are reflective of the scope of privileges requested.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Perform history and physical examinations			
Supervise physician assistants			
Treat pediatric patients (2 months to 12 years of age)			
Treat adolescent patients (13 to 17 years of age)			
Treat adult patients (18 years of age and older)			
Administer local anesthetics			
Perform regional nerve blocks			
Cryosurgery			
Endoscopic biopsy			
Harvesting of skin, fat, or bone grafts of the head and neck, hip, trunk, and extremities			
Incision/excisional biopsy			
Needle biopsy / punch biopsy			
Reconstructive procedure of the upper airway			

Privilege	Newly Requested	Currently Held	Granted / Renewed
Reduction of facial fractures			
Repair of fistulas - oral-antral, oral-nasal, oral-maxillary, and oral-cutaneous			
Surgery of the larynx, including external approach (e.g. laryngofissure, laryngeal framework surgery), internal/endoscopic approach (fiberoptic flexible and direct laryngoscopy, vocal fold surgery, laser surgery, and microdebrider surgery), biopsy, and fracture repair.			
Surgery of the nasal and paranasal sinuses (frontal, maxillary, ethmoidal, sphenoidal) and surgery of the nasal mucosa and turbinates, including control of epistaxis, endoscopic e.g. nasal septoplasty, inferior turbinoplasty, maxillary antrostomy (Caldwell Luc), ethmoidectomy, sphenoidectomy, frontal sinusotomy, dacryocystorhinostomy, and non-endoscopic e.g. septoplasty.			
Surgery of the oral cavity, including soft palate, tongue, mandible, uvulopalatopharyngoplasty, tongue suspension and volume reduction, genioglossus advancement, lipectomy, hyoid suspension, partial/total glossectomy, floor of mouth resection, resection - hard/soft palate.			
Surgery of the salivary gland, including: parotidectomy, ranula excision, and plastic repair of salivary complex.			
Surgery of the thyroid / parathyroid: thyroid lobectomy, subtotal/total thyroidectomy, and parathyroidectomy.			
Surgery on the ear, auditory canal, the tympanic membrane, and the contents of the middle ear: tympanoplasty, typanomastoidectomy, labyrinthectomy, mastoidectomy, canaloplasty, stapedectomy, auriculectomy/wedge resection/reconstruction, and temporal bone resection.			
Tonsillectomy, adenoidectomy			
Frenulectomy/frenectomy			
Direct laryngoscopy - fiberoptic and rigid			
Nasopharyngoscopy			
True vocal fold injection/thyroplasty			
Laser/cold knife microlaryngeal surgery/arytenoidectomy			
Microdebrider endoscopy			
Esophagoscopy (diagnostic, foreign body removal, dilation)			
Bronchoscopy (diagnostic, foreign body removal, dilation, laser, fiberoptic)			

Neurotology			
Qualifications			
Education & Training:	Applicants must meet criteria for core otolaryngology privileges and have successfully completed a fellowship in neurotology.		
Certification:	Current subspecialty certification or board eligible with achievement of certification within 5 years of completion of formal training leading to subspecialty certification in neurotology by the American Board of Otolaryngology; OR An equivalent as set forth in the Medical Staff Bylaws. Maintenance of Certification is required unless a provider is legacy (grandfathered) as set forth in the Medical Staff Bylaws.		
New Privilege:	Demonstrated current competence with evidence of at least 15 neurotological surgeries within the past 12 months that are reflective of the scope of privileges requested; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least 45 neurotological surgeries within the past 36 months that are reflective of the scope of privileges requested.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Treat pediatric patients (2 months to 12 years of age)			
Treat adolescent patients (13 to 17 years of age)			
Treat adult patients (18 years of age and older)			
Perform history and physical examinations			
Supervise physician assistants			
Administer local anesthetics			
Perform regional nerve blocks			
Cochlear implantation			
Decompression membranous labyrinth cochleosacculotomy, endolymphatic sac operation			
Electrophysiologic monitoring of cranial nerves VII, VIII, X, XI, and XII			
Excision of glomus tumor			
Interpret imaging techniques of the temporal bones and lateral skull base			
Labyrinthectomy			
Mastoid tympanoplasty			

Privilege	Newly Requested	Currently Held	Granted / Renewed
Osseo integrated implants, for auricular prosthesis, for bone anchored hearing aid			
Petrous apiectomy plus radical mastoid			
Reconstruction congenital aural atresia			
Repair fistula (OW, RW)			
Stapedectomy			
VII nerve repair/substitution			

Plastic and Reconstructive Surgery

Qualifications

Education & Training:	Successful completion of an ACGME- or AOA-accredited residency in otolaryngology that included training in plastic and reconstructive surgery; OR An equivalent as set forth in the Medical Staff Bylaws.		
Certification:	Current certification or board eligible with achievement of certification within 5 years of completing formal training leading to certification in otolaryngology by the American Board of Otolaryngology, the American Osteopathic Board of Ophthalmology and Otolaryngology - Head and Neck Surgery; OR An equivalent as set forth in the Medical Staff Bylaws. Maintenance of Certification is required unless a provider is legacy (grandfathered) as set forth in the Medical Staff Bylaws.		
New Privilege:	Demonstrated current competence with evidence of at least three plastic and reconstructive surgeries within the past 12 months that are reflective of the scope of privileges requested; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least nine plastic and reconstructive surgeries within the past 36 months that are reflective of the scope of privileges requested.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Treat pediatric patients (2 months to 12 years of age)			
Treat adolescent patients (13 to 17 years of age)			
Treat adult patients (18 years of age and older)			
Perform history and physical examinations			
Supervise physician assistants			
Administer local anesthetics			
Perform regional nerve blocks			
Browlift			
Genioplasty (implant and osseous)			
Facial resurfacing (including laser)			
Blepharoplasty			
Rhinoplasty			
Rhytidectomy			

Privilege	Newly Requested	Currently Held	Granted / Renewed
Otoplasty			
Mentoplasty			
Liposuction (face/neck)			
Implantation of autogenous, homologous, and allograft			
Repair of lacerations			
Lip surgery including lip shave wedge excision/reconstruction; upper / lower lip resection/reconstruction			
Chemical peel			
Dermabrasion			
Lipoinjection (face/neck)			
Hair transplantation			
Scar revision (face/neck)			
Non-cleft Cheiloplasty			
Injectable fillers (face/neck)			
Facial botulinum toxin injections			

Craniomaxillofacial Trauma

Qualifications

Education & Training:	Successful completion of an ACGME- or AOA-acccredited residency in otolaryngology that included training in craniomaxillofacial trauma; OR An equivalent as set forth in the Medical Staff Bylaws.		
Certification:	Current certification or board eligible with achievement of certification within 5 years of completing formal training leading to certification in otolaryngology by the American Board of Otolaryngology, the American Osteopathic Board of Ophthalmology and Otolaryngology - Head and Neck Surgery; OR An equivalent as set forth in the Medical Staff Bylaws. Maintenance of Certification is required unless a provider is legacy (grandfathered) as set forth in the Medical Staff Bylaws.		
New Privilege:	Demonstrated current competence with evidence of at least two craniomaxillofacial trauma surgeries within the past 12 months that are reflective of the scope of privileges requested; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least six craniomaxillofacial trauma surgeries within the past 36 months that are reflective of the scope of privileges requested.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Frontal sinus fracture			
Orbital fracture			
Zygomatico-orbital complex fracture			
Zygomatic arch fracture			
Nasal fracture			
Naso-orbito-ethmoid fracture			
Maxillary fracture			
Alveolar fracture			

Use of Laser			
Qualifications			
Education & Training:	Successful completion of an approved residency in a specialty or subspecialty that included training in laser principles.		
New Privilege:	Completion of the Laser Safety course (appropriate to your discipline) as well as the Surgical Fire Safety course through PEAK on the Mount Sinai intranet within 12 months of initial credentialing; OR Completion of equivalent courses at the approval of the Medical Executive Committee.		
Renewal of Privilege:	Course completion within 12 months of recredentialing.		
Privilege		Newly Requested	Currently Held
Use of Laser			

Administration of Chemotherapy and Biotherapy

Qualifications

Education & Training:	Successful completion of an approved residency in a specialty or subspecialty that included training in the administration of chemotherapy/biotherapy.		
New Privilege:	Applicant must complete the Mount Sinai Chemotherapy and Biotherapy Safety Course through PEAK on the Mount Sinai intranet within 12 months of initial credentialing; OR Completion of an equivalent course approved by the Medical Executive Committee within 12 months of initial credentialing.		
Renewal of Privilege:	Course completion within 12 months of recredentialing.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Administration of Chemotherapy and Biotherapy			

Acknowledgment of Practitioner

I have requested only those privileges which by education, training, current experience, and demonstrated performance I am qualified to perform, and for which I wish to exercise at this center. I further understand that:

- A. Privileges requested may differ from those granted and approved;
- B. Completion of this form, at the present time, does not preclude me from requesting additional privileges in the future;
- C. The granting of clinical privileges will be made in conformance with the applicable Medical Staff Bylaws and Policies and Procedures;
- D. Failure to obtain and maintain all threshold criteria set forth above, or non-compliance with the applicable Medical Staff Bylaws or Policies or Procedures, may constitute grounds for non-renewal or restriction/limitation of clinical privileges.

Practitioner's Signature

Date

Medical Director Declaration

The practitioner's request for new, modified, or renewed clinical privileges has been reviewed by the Center's Medical Director or an appropriate member of the Medical Executive Committee and presented to the Governing Board for approval. Privileges that have received a checkmark in the designated column have been granted. Any privileges that were requested but not granted are listed below, along with an explanation for each determination.

Medical Director: Michael A. Gorin, M.D.
