

Ophthalmology

Delineation of Privileges

Applicant Information

Full Name:

Date of Birth:

Home Address:

Life Number (if available):

Please check the box beside each clinical privilege being requested. Applicants are required to produce information deemed necessary by the center in order to properly evaluate current competence, current clinical activity, and other privileging requirements.

Ophthalmology (Core Privileges)				
Qualifications				
Education & Training:	Successful completion of an Accreditation Council for Graduate Medical Education (ACGME) or American Osteopathic Association (AOA) accredited residency in ophthalmology; OR An equivalent as set forth in the Medical Staff Bylaws.			
Certification:	Current certification or board eligibility in ophthalmology with achievement of certification within 5 years of training leading to certification in ophthalmology by the American Board of Ophthalmology or the American Osteopathic Board of Ophthalmology and Otolaryngology - Head and Neck Surgery; OR An equivalent as set forth in the Medical Staff Bylaws. Maintenance of Certification is required unless a provider is legacy (grandfathered) as set forth in the Medical Staff Bylaws.			
New Privilege:	Demonstrated current competence with evidence of at least 10 ophthalmology procedures within the last 12 months that are reflective of the scope of privileges requested; OR Successful completion of an ACGME or AOA accredited residency within the past 12 months.			
Renewal of Privilege:	Demonstrated current competence with evidence of at least 30 ophthalmology procedures within the last 36 months that are reflective of the scope of privileges requested.			
Privilege	Newly Requested	Currently Held	Granted / Renewed	
Perform history and physical examinations				
Supervise physician assistants				
Treat adult patients (18 years of age and older)				
Administer local anesthetics				
Perform regional nerve blocks				
Perform history and physical exam				
A and B mode ultrasound examination				
Evaluation and interpretation of diagnostic imaging tests, including fundus photographs, fluorescein angiography, optical coherence tomography, imaging of the optic nerve, and ultrasonography				
Intraocular diagnostic aspirations and therapeutic injections, including paracentesis, intravitreal aspirations, and intravitreal injections				
Removal of corneal foreign bodies and sutures				
Anterior vitrectomy via a corneal, limbal, or pars plana approach				
Corneal incisions for correction of refractive error				

Privilege	Newly Requested	Currently Held	Granted / Renewed
Conjunctival surgery, including grafts, flaps, tumor removal, and excision of pterygium and pinguecula with or without amniotic membrane or conjunctival graft			
Minor lid and ocular adnexal surgery, including chalazion excision, repair of ptosis, repair of lacerations, repair of ectropion and entropion, nasolacrimal probing and irrigation			
Enucleation and evisceration			
Lateral canthotomy and cantholysis			
Repair of iris defects and cyclodialysis clefts			
Repair of corneal and scleral lacerations			
Removal of anterior and/or posterior chamber foreign body			
Use of local anesthetics for ophthalmic conditions			
Administration of periocular injections, including posterior sub-Tenon's, retrobulbar, and peribulbar injections for medical delivery or chemical denervation for pain control			
Strabismus surgery			
Penetrating keratoplasty			
Transscleral cyclophotocoagulation			
Endoscopic cyclophotocoagulation			
Standard laser procedures, including peripheral iridotomy, trabeculoplasty, iridoplasty, capsulotomy, pan-retinal photocoagulation, focal macular photocoagulation, laser suture lysis, and retinopexy (requires "Use of Laser" privilege below).			
EDTA Chelation for Band Keratopathy			
Cataract surgery: Intra and extracapsular cataract extraction, including phacoemulsification with or without intraocular lens implant			
Cyclocryotherapy			
Standard glaucoma surgery, including trabeculectomy with or without intraoperative/postoperative antifibrotic therapy, aqueous shunt surgery, surgical iridectomy			

Use of Laser			
Qualifications			
Education & Training:	Successful completion of an approved residency in a specialty or subspecialty that included training in laser principles.		
New Privilege:	Completion of the Laser Safety course (appropriate to your discipline) as well as the Surgical Fire Safety course through PEAK on the Mount Sinai intranet within 12 months of initial credentialing; OR Completion of equivalent courses at the approval of the Medical Executive Committee.		
Renewal of Privilege:	Course completion within 12 months of recredentialing.		
Privilege		Newly Requested	Currently Held
Use of Laser			

Femtosecond-laser Assisted Cataract Surgery			
Qualifications			
Education & Training:			
New Privilege:	Demonstrated current competence with evidence of at least one femtosecond-laser assisted cataract surgery within the past 12 months; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least three femtosecond-laser assisted cataract surgeries within the past 36 months.		
Privilege		Newly Requested	Currently Held
Femtosecond-laser assisted cataract surgery			

miCOR-assisted Cataract Surgery			
Qualifications			
Education & Training:	Applicant must meet criteria for core ophthalmology privileges;		
New Privilege:	Demonstrated current competence with evidence of at least one miCOR-assisted cataract surgery within the past 12 months; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least three miCOR-assisted cataract surgeries within the past 36 months.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
miCOR-assisted cataract surgery			

Implantable Collamer Lens (ICL) surgery			
Qualifications			
Education & Training:	Applicant must meet criteria for core ophthalmology privileges;		
New Privilege:	Demonstrated current competence with evidence of at least one implantable collamer lens (ICL) surgery within the past 12 months; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least three implantable collamer lens (ICL) surgeries within the past 36 months.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Implantable Collamer Lens (ICL) surgery			

Schlemm's Canal Surgery			
Qualifications			
Education & Training:	Applicant must meet criteria for core ophthalmology privileges and have additional certification for one or more of the following specific procedures: Trabectome, iStent, Kahook Dual Blade Goniotomy, Hydrus Microstent, Omni surgical system, iTrack Advance;		
New Privilege:	Demonstrated current competence with evidence of at least one Schlemm's canal surgery within the past 12 months; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least three Schlemm's canal surgeries within the past 36 months.		
Privilege		Newly Requested	Currently Held
Schlemm's canal surgery			

Ab interno Aqueous Micro Shunt (Xen Gel Stent)			
Qualifications			
Education & Training:	Applicant must meet criteria for core ophthalmology privileges;		
New Privilege:	Demonstrated current competence with evidence of at least one Ab interno aqueous micro shunt (Xen Gel Stent) procedure within the past 12 months; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least three Ab interno aqueous micro shunt (Xen Gel Stent) procedures within the past 36 months.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Ab interno aqueous micro shunt (Xen Gel Stent)			

Advanced Corneal Surgery			
Qualifications			
Education & Training:	Applicants must meet criteria for core ophthalmology privileges and have successfully completed a fellowship in corneal surgery.		
New Privilege:	Demonstrated current competence with evidence of at least two advanced corneal surgeries within the past 12 months that are reflective of the scope of privileges requested; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least six advanced corneal surgeries within the past 36 months that are reflective of the scope of privileges requested.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Endokeratoplasty			
Keratoprosthesis surgery			

Intralase-enabled Keratoplasty (IEK)			
Qualifications			
Education & Training:	Applicants must meet criteria for core ophthalmology privileges and have successfully completed a fellowship in corneal surgery.		
New Privilege:	Demonstrated current competence with evidence of at least one intralase-enabled keratoplasty (IEK) procedure within the past 12 months; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least three intralase-enabled keratoplasty (IEK) procedures within the past 36 months.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Intralase-enabled keratoplasty (IEK)			

Advanced Glaucoma Surgery

Qualifications

Education & Training:	Applicants must meet criteria for core ophthalmology privileges and have successfully completed a fellowship in glaucoma surgery.		
New Privilege:	Demonstrated current competence with evidence of at least two advanced glaucoma surgeries within the past 12 months that are reflective of the scope of privileges requested; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least six advanced glaucoma surgeries within the past 36 months that are reflective of the scope of privileges requested.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Deep sclerectomy with viscocanalostomy			
Complex aqueous shunt and aqueous shunt revision surgery			
Ex-Press Glaucoma Filtration Device			
Suprachoroidal stent placement			

Keratorefractive Surgery			
Qualifications			
Education & Training:	Applicants must meet criteria for core ophthalmology privileges and have successfully completed a fellowship in keratorefractive or corneal surgery.		
New Privilege:	Demonstrated current competence with evidence of at least one keratorefractive surgery within the past 12 months that are reflective of the scope of privileges requested; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least three keratorefractive surgeries within the past 36 months that are reflective of the scope of privileges requested.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Photorefractive and phototherapeutic keratectomy			
Laser-assisted in situ keratomileusis (LASIK)			
Intralase			
Laser-assisted sub-epithelial keratectomy (LASEK)			
Corneal ring implant surgery			

Advanced Oculoplastic Surgery			
Qualifications			
Education & Training:	Applicants must meet criteria for core ophthalmology privileges and have successfully completed a fellowship in oculoplastic surgery.		
New Privilege:	Demonstrated current competence with evidence of at least two advanced oculoplastic surgeries within the past 12 months that are reflective of the scope of privileges requested; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least six advanced oculoplastic surgeries within the past 36 months that are reflective of the scope of privileges requested.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Orbital surgery, including exenteration, orbitotomy, orbital decompression, orbital tumor biopsy or removal, orbital fracture repair, orbital trauma surgery, and optic nerve sheath decompression.			
Facial surgery, including forehead and brow lifts, mid-face and cheek repairs, tumor removal and eyelid reconstruction.			
Cosmetic fillers and botulinum toxin injections.			

Retina and Vitreous Surgery			
Qualifications			
Education & Training:	Applicants must meet criteria for core ophthalmology privileges and have successfully completed a fellowship in vitreo-retinal surgery.		
New Privilege:	Demonstrated current competence with evidence of at least two retina and vitreous surgeries within the past 12 months that are reflective of the scope of privileges requested; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least six retina and vitreous surgeries within the past 36 months that are reflective of the scope of privileges requested.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Scleral buckling surgery			
Pars plana vitrectomy for repair of retinal detachment and treatment of vitreoretinal diseases			
Posterior segment trauma surgery, removal of posterior segment foreign bodies			
Intravitreal implant surgery, lensectomy via pars plana approach			
Secondary intraocular lens implantation			
Drainage of suprachoroidal effusion and hemorrhage			

Retinal Examination and Treatment for Retinopathy of Prematurity (ROP)

Qualifications

Education & Training:	Applicants must meet criteria for core ophthalmology privileges and have successfully completed a fellowship in vitreoretinal diseases or pediatric ophthalmology that included training in retinal exams for ROP.		
New Privilege:	Demonstrated current competence with evidence of at least one retinal examination and treatment for retinopathy of prematurity (ROP) procedure within the past 12 months that is reflective of the scope of privileges requested; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least three retinal examination and treatment for retinopathy of prematurity (ROP) procedures within the past 36 months that are reflective of the scope of privileges requested.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Treat pediatric patients (2 months to 12 years of age)			
Treat adolescent patients (13 to 17 years of age)			
Examination under anesthesia			
Laser photocoagulation			
Cryotherapy			
Intravitreal injection of pharmacologic agents for the treatment of ROP			

Pediatric / Adolescent Glaucoma Surgery

Qualifications

Education & Training:	Applicants must meet criteria for core ophthalmology privileges and have successfully completed a fellowship in glaucoma or pediatric ophthalmology that included training in pediatric glaucoma surgery.		
New Privilege:	Demonstrated current competence with evidence of at least one pediatric or adolescent glaucoma surgery within the past 12 months that is reflective of the scope of privilege; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least three pediatric or adolescent glaucoma surgeries within the past 36 months that are reflective of the scope of privileges requested;.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Treat pediatric patients (2 months to 12 years of age)			
Treat adolescent patients (13 to 17 years of age)			
Examination under anesthesia			
Trabeculectomy with or without anti-fibrosis therapy			
Aqueous shunt surgery			
Goniotomy, trabeculotomy, or other Schlemm's canal-based procedures			
Cyclophotocoagulation			
Cyclocryotherapy			

Pediatric Cataract Surgery

Qualifications

Education & Training:	Applicants must meet criteria for core ophthalmology privileges and have successfully completed a fellowship in pediatric ophthalmology that included training in pediatric cataract surgery.		
New Privilege:	Demonstrated current competence with evidence of at least one pediatric or adolescent cataract surgery within the past 12 months; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least three pediatric or adolescent cataract surgeries within the past 36 months;		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Treat pediatric patients (2 months to 12 years of age)			
Treat adolescent patients (13 to 17 years of age)			
Cataract surgery with or without intraocular lens implantation			

Acknowledgment of Practitioner

I have requested only those privileges which by education, training, current experience, and demonstrated performance I am qualified to perform, and for which I wish to exercise at this center. I further understand that:

- A. Privileges requested may differ from those granted and approved;
- B. Completion of this form, at the present time, does not preclude me from requesting additional privileges in the future;
- C. The granting of clinical privileges will be made in conformance with the applicable Medical Staff Bylaws and Policies and Procedures;
- D. Failure to obtain and maintain all threshold criteria set forth above, or non-compliance with the applicable Medical Staff Bylaws or Policies or Procedures, may constitute grounds for non-renewal or restriction/limitation of clinical privileges.

Practitioner's Signature

Date

Medical Director Declaration

The practitioner's request for new, modified, or renewed clinical privileges has been reviewed by the Center's Medical Director or an appropriate member of the Medical Executive Committee and presented to the Governing Board for approval. Privileges that have received a checkmark in the designated column have been granted. Any privileges that were requested but not granted are listed below, along with an explanation for each determination.

Medical Director: Michael A. Gorin, M.D.
