

Orthopedic Surgery

Delineation of Privileges

Applicant Information

Full Name:

Date of Birth:

Home Address:

Life Number (if available):

Please check the box beside each clinical privilege being requested. Applicants are required to produce information deemed necessary by the center in order to properly evaluate current competence, current clinical activity, and other privileging requirements.

Orthopedic Surgery (Core Privileges)			
Qualifications			
Education & Training:	Successful completion of an Accreditation Council for Graduate Medical Education (ACGME)- or American Osteopathic Association (AOA)-accredited residency in orthopedic surgery; OR An equivalent as set forth in the Medical Staff Bylaws.		
Certification:	Current certification or board eligible with achievement of certification within 5 years of completing formal training leading to certification in orthopedic surgery by the American Board of Orthopaedic Surgery or the American Osteopathic Board of Orthopedic Surgery; OR An equivalent as set forth in the Medical Staff Bylaws. Maintenance of Certification is required unless a provider is legacy (grandfathered) as set forth in the Medical Staff Bylaws.		
New Privilege:	Demonstrated current competence with evidence of at least 35 orthopedic surgical procedures within the past 12 months that are reflective of the scope of privileges requested; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least 105 orthopedic surgical procedures within the past 36 months that are reflective of the scope of privileges requested.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Perform history and physical examinations			
Supervise physician assistants			
Treat adolescent patients (13 to 17 years of age)			
Treat adult patients (18 years of age and older)			
Administer local anesthetics			
Perform regional nerve blocks			
Hip			
Amputation surgery including immediate prosthetic fitting in the operating room			
Arthrocentesis, diagnostic			
Arthrodesis, osteotomy and ligament reconstruction of the major peripheral joints, excluding total replacement of joint			
Arthrography			
Arthroscopy			
Biopsy and excision of masses involving bone and adjacent soft tissues			

Privilege	Newly Requested	Currently Held	Granted / Renewed
Bone grafts and allografts			
Debridement of soft tissue			
Fasciotomy and fasciectomy			
Fracture fixation			
Hip resurfacing			
Joint replacement			
Ligament reconstruction			
Muscle and tendon repair			
Open and closed reduction and internal/external fixation of fractures and dislocations of the skeleton			
Reconstruction of nonspinal congenital musculoskeletal anomalies			
Treatment of cartilage injuries; e.g. autologous chondrocyte implantation (ACI), osteoarticular transfer system (OATS)			
Treatment of extensive trauma, excluding spine			
Knee			
Amputation surgery including immediate prosthetic fitting in the operating room			
Arthrocentesis, diagnostic			
Arthrodesis, osteotomy and ligament reconstruction of the major peripheral joints, excluding total replacement of joint			
Arthrography			
Arthroscopy			
Biopsy and excision of masses involving bone and adjacent soft tissues			
Bone grafts and allografts			
Debridement of soft tissue			
Fasciotomy and fasciectomy			
Fracture fixation			

Privilege	Newly Requested	Currently Held	Granted / Renewed
Joint replacement			
Ligament reconstruction			
Muscle and tendon repair			
Open and closed reduction and internal/external fixation of fractures and dislocations of the skeleton			
Reconstruction of nonspinal congenital musculoskeletal anomalies			
Treatment of extensive trauma, excluding spine			
Shoulder and Elbow			
Amputation surgery including immediate prosthetic fitting in the operating room			
Arthroscopy			
Biopsy and excision of masses involving bone and adjacent soft tissues			
Debridement of soft tissue			
Fasciotomy and fasciectomy			
Joint replacement			
Muscle and tendon repair			
Open and closed reduction and internal/external fixation of fractures and dislocations			
Treatment of cartilage injuries; e.g. autologous chondrocyte implantation (ACI), osteoarticular transfer system (OATS)			
Foot and Ankle			
Amputation surgery including immediate prosthetic fitting in the operating room			
Arthroscopy			
Biopsy and excision of masses involving bone and adjacent soft tissues			
Debridement of soft tissue			
Fasciotomy and fasciectomy			
Joint replacement			

Privilege	Newly Requested	Currently Held	Granted / Renewed
Muscle and tendon repair			
Open and closed reduction of fractures			
Open reduction and internal/external fixation of fractures and dislocations			
Osteotomy and fusion of joints			
Treatment of cartilage injuries; e.g. autologous chondrocyte implantation (ACI), osteoarticular transfer system (OATS)			
Hand			
Amputation surgery including immediate prosthetic fitting in the operating room			
Arthroplasty of large and small joints, wrist, or hand, including implants			
Biopsy and excision of masses involving bone and adjacent soft tissues			
Bone graft pertaining to the hand			
Fasciotomy and fasciectomy			
Fracture fixation with compression plates or wires			
Nerve decompression			
Neurorrhaphy			
Open and closed reductions of fractures			
Repair of lacerations			
Repair of rheumatoid arthritis deformity			
Skin grafts			
Tendon reconstruction (free graft, staged)			
Tendon release, repair, and fixation			
Tendon transfers			

Hand Surgery			
Qualifications			
Education & Training:	Successful completion of an Accreditation Council for Graduate Medical Education (ACGME)- or American Osteopathic Association (AOA)-accredited residency in orthopedic surgery; AND Successful completion of an accredited fellowship in hand surgery; OR An equivalent as set forth in the Medical Staff Bylaws.		
Certification:	Current certification or board eligible with achievement of certification within 5 years of completing formal training leading to certification in orthopedic surgery by the American Board of Orthopaedic Surgery or the American Osteopathic Board of Orthopedic Surgery; AND Current subspecialty certification in Surgery of the Hand (SSH) through the American Board of Orthopaedic Surgery, or board eligible with achievement of certification within 5 years of completing formal training leading to such subspecialty certification; OR An equivalent as set forth in the Medical Staff Bylaws. Maintenance of Certification is required unless a provider is legacy (grandfathered) as set forth in the Medical Staff Bylaws.		
New Privilege:	Demonstrated current competence with evidence of at least 40 hand surgeries within the past 12 months that are reflective of the scope of privileges requested; OR Successful completion of fellowship training within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least 120 hand surgeries within the past 36 months that are reflective of the scope of privileges requested.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Perform history and physical examinations			
Supervise physician assistants			
Treat adolescent patients (13 to 17 years of age)			
Treat adult patients (18 years of age and older)			
Administer local anesthetics			
Perform regional nerve blocks			
Amputation surgery including immediate prosthetic fitting in the operating room			
Arthroscopy			
Biopsy and excision of masses involving bone and adjacent soft tissues			
Bone grafts and corrective osteotomies			
Deep incision and drainage for infection			

Privilege	Newly Requested	Currently Held	Granted / Renewed
Fasciotomy and fasciectomy			
Foreign body and implant removal			
Joint and tendon sheath repairs, including release of contracture, synovectomy, arthroplasty with and without implant, arthrodesis, trigger finger release, and stiff joints that result from rheumatoid or other injury management of arthritis			
Joint repair and reconstruction, including contracture release and management of stiff joints			
Management of fractures and dislocations, including phalangeal or metacarpal with and without internal fixation; carpus, radius, and ulna with and without internal fixation; and injuries to joints and ligaments			
Nerve repair and reconstruction, including upper extremity peripheral nerves, nerve graft, neurolysis, neuroma management, nerve decompression and transposition			
Tendon sheath release			
Tendon transfer and tendon balancing			
Tenorrhaphy, including flexor tendon repair and graft, implantation of tendon spacer, extensor tendon repair, and tenolysis/tenodesis			
Thumb reconstruction, including pollicization and thumb metacarpal lengthening			
Wound debridement and closure, including skin grafts, and local or regional tissue flaps			

Spine Surgery			
Qualifications			
Education & Training:	Successful completion of an Accreditation Council for Graduate Medical Education (ACGME)- or American Osteopathic Association (AOA)-accredited residency in orthopedic surgery; AND Successful completion of an ACGME- or AOA-accredited fellowship in pediatric orthopedics or orthopedic surgery of the spine; OR An equivalent as set forth in the Medical Staff Bylaws.		
Certification:	Current certification or board eligible with achievement of certification within 5 years of completing formal training leading to certification in orthopedic surgery by the American Board of Orthopaedic Surgery or the American Osteopathic Board of Orthopedic Surgery; OR An equivalent as set forth in the Medical Staff Bylaws. Maintenance of Certification is required unless a provider is legacy (grandfathered) as set forth in the Medical Staff Bylaws.		
New Privilege:	Demonstrated current competence with evidence of at least 20 spine surgeries within the past 12 months that are reflective of the scope of privileges requested; OR Successful completion of fellowship training within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least 60 spine surgeries within the past 36 months that are reflective of the scope of privileges requested.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Perform history and physical examinations			
Supervise physician assistants			
Treat adolescent patients (13 to 17 years of age)			
Treat adult patients (18 years of age and older)			
Administer local anesthetics			
Perform regional nerve blocks			
Artificial disc replacement (cervical / lumbar)			
Arthrodesis			
Biopsy and excision of masses involving bone and adjacent soft tissues			
Endoscopic minimally invasive spinal surgery			
Laminectomies, laminotomies, and fixation and reconstructive procedures of the spine and its contents including instrumentation			
Lumbar puncture			

Privilege	Newly Requested	Currently Held	Granted / Renewed
Minimally invasive lumbar discectomy			
Sacroiliac joint fusion			
Scoliosis and kyphosis instrumentation			
Spinal cord surgery for decompression of spinal cord or spinal canal, rhizotomy, cordotomy, dorsal root entry zone lesion, tethered spinal cord or other congenital anomalies			
Treatment of extensive trauma			
Vertebral augmentation procedures to include percutaneous techniques used to achieve internal vertebral body stabilization			

Fluoroscopy				
Qualifications				
Education & Training:	Successful completion of an approved residency or fellowship in a specialty or subspecialty that included training in fluoroscopy and radiation safety principles.			
New Privilege:	Completion of the Radiation Safety in Fluoroscopy for Operators course through PEAK on the Mount Sinai intranet within 12 months of initial credentialing; OR Completion of an equivalent course approved by the Medical Executive Committee within 12 months of initial credentialing.			
Renewal of Privilege:	Course completion within 12 months of recredentialing.			
Privilege	Newly Requested	Currently Held	Granted / Renewed	
Fluoroscopy				

Acknowledgment of Practitioner	
I have requested only those privileges which by education, training, current experience, and demonstrated performance I am qualified to perform, and for which I wish to exercise at this center. I further understand that: A. Privileges requested may differ from those granted and approved; B. Completion of this form, at the present time, does not preclude me from requesting additional privileges in the future; C. The granting of clinical privileges will be made in conformance with the applicable Medical Staff Bylaws and Policies and Procedures; D. Failure to obtain and maintain all threshold criteria set forth above, or non-compliance with the applicable Medical Staff Bylaws or Policies or Procedures, may constitute grounds for non-renewal or restriction/limitation of clinical privileges.	
Practitioner's Signature	Date

Medical Director Declaration

The practitioner's request for new, modified, or renewed clinical privileges has been reviewed by the Center's Medical Director or an appropriate member of the Medical Executive Committee and presented to the Governing Board for approval. Privileges that have received a checkmark in the designated column have been granted. Any privileges that were requested but not granted are listed below, along with an explanation for each determination.

Medical Director: Michael A. Gorin, M.D.
