

Urology

Delineation of Privileges

Applicant Information

Full Name:

Date of Birth:

Home Address:

Life Number (if available):

Please check the box beside each clinical privilege being requested. Applicants are required to produce information deemed necessary by the center in order to properly evaluate current competence, current clinical activity, and other privileging requirements.

Urology (Core Privileges)			
Qualifications			
Education & Training:	Successful completion of an Accreditation Council for Graduate Medical Education (ACGME)- or American Osteopathic Association (AOA)-accredited residency in urology; OR An equivalent as set forth in the Medical Staff Bylaws.		
Certification:	Current certification or board eligible with achievement of certification within 5 years of completing formal training leading to certification in urology by the American Board of Urology or the American Osteopathic Board of Surgery (Urological Surgery); OR An equivalent as set forth in the Medical Staff Bylaws. Maintenance of Certification is required unless a provider is legacy (grandfathered) as set forth in the Medical Staff Bylaws.		
New Privilege:	Demonstrated current competence with evidence of at least 25 urological procedures within the past 12 months that are reflective of the scope of privileges requested; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least 75 urological procedures within the past 36 months that are reflective of the scope of privileges requested.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Perform history and physical examinations			
Supervise physician assistants			
Treat adolescent patients (13 to 17 years of age)			
Treat adult patients (18 years of age and older)			
Administer local anesthetics			
Perform regional nerve blocks			
Ablation of the prostate for treatment of prostate cancer, including cryotherapy, high-intensity focused ultrasound, and irreversible electroporation			
Balloon dilation or laser incision of ureteral stricture			
Continence procedures for stress urinary incontinence, including injection of periurethral bulking agents and sling procedures			
Cystoscopy and associated procedures, including ureteral stent placement; bladder biopsy; cystolitholapaxy; transurethral resection of bladder tumor; treatment of urethral stricture or bladder neck contracture; Botox injections; and foreign body removal			
Extracorporeal shock wave lithotripsy			
Harvesting of grafts/flaps and repair/closure of grafts/flaps			

Privilege	Newly Requested	Currently Held	Granted / Renewed
Inguinal herniorrhaphy			
Intravesical, intraluminal, or topical treatment of benign and malignant processes, including immunotherapy and chemotherapy			
Management of congenital anomalies of the genitourinary tract presenting in adulthood			
Microsurgical epididymovasostomy and vasovasostomy			
Open stone surgery on the bladder			
Open ureteral repair or ureteral reimplantation for immediate treatment of a complication of endoscopic surgery			
Other plastic and reconstructive procedures on the external genitalia, excluding gender reassignment surgery			
Percutaneous aspiration or tube insertion			
Percutaneous biopsy of the kidney with ultrasound guidance			
Percutaneous nephrolithotomy			
Percutaneous placement or exchange of nephrostomy tube, nephroureteral stent, or ureteral stent			
Placement or repair of a penile prosthesis			
Placement or repair of a tibial or sacral nerve stimulator			
Placement or repair of an artificial urinary sphincter			
Plastic and reconstructive procedures on the bladder, urethra, and genitalia			
Reconstructive procedures on the external male genitalia requiring prosthetic implants or foreign materials			
Revision, removal, or release of a suburethral sling			
Surgery of the testicle, scrotum, epididymis, and vas deferens, including biopsy; orchiopexy; orchiectomy; epididymectomy; vasectomy; vasovasostomy; and repair of injury			
Surgery upon the penis, including circumcision; repair for benign or malignant disease; grafting; excision or biopsy of penile lesion; removal of penile prosthesis; and penectomy			
Surgery upon the urethra, including treatment of urethral valves; balloon dilation; stricture repair; urethral fistula repair; grafting; urethral suspension procedures; visual urethrotomy; sphincter prosthesis removal; and periurethral injections			
Transvaginal surgery for pelvic organ prolapse			

Privilege	Newly Requested	Currently Held	Granted / Renewed
Treatment of benign prostatic hyperplasia with transurethral techniques, including prostatic urethral lift placement; temporary implanted prostatic device; balloon dilation; water vapor thermal therapy; robotic waterjet treatment; transurethral resection or incision of the prostate; and laser vaporization or enucleation of the prostate			
Ultrasound-guided prostate biopsy (transrectal or transperineal) with or without MRI guidance			
Ureteroscopy for benign and malignant processes of the ureter, renal pelvis, and collecting system, including biopsy; stone removal; laser lithotripsy; treatment of stricture; stent placement; and tumor ablation with laser or electrocautery			

Fluoroscopy			
Qualifications			
Education & Training:	Successful completion of an approved residency or fellowship in a specialty or subspecialty that included training in fluoroscopy and radiation safety principles.		
New Privilege:	Completion of the Radiation Safety in Fluoroscopy for Operators course through PEAK on the Mount Sinai intranet within 12 months of initial credentialing; OR Completion of an equivalent course approved by the Medical Executive Committee within 12 months of initial credentialing.		
Renewal of Privilege:	Course completion within 12 months of recredentialing.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Fluoroscopy			

Use of Laser			
Qualifications			
Education & Training:	Successful completion of an approved residency in a specialty or subspecialty that included training in laser principles.		
New Privilege:	Completion of the Laser Safety course (appropriate to your discipline) as well as the Surgical Fire Safety course through PEAK on the Mount Sinai intranet within 12 months of initial credentialing; OR Completion of equivalent courses at the approval of the Medical Executive Committee.		
Renewal of Privilege:	Course completion within 12 months of recredentialing.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Use of Laser			

Point of Care Ultrasound (POCUS)			
Qualifications			
Education & Training:	Successful completion of an approved residency or fellowship in a specialty or subspecialty that included training in POCUS principles; Practitioner agrees to limit practice to only the specific POCUS procedures within their specialty for which they have provided documentation of training and experience.		
New Privilege:	Demonstrated current competence with evidence of at least five POCUS procedures within the past 12 months that are reflective of the scope of privileges requested; OR Successful completion of an ACGME- or AOA-accredited residency, or fellowship training, within the past 12 months.		
Renewal of Privilege:	Demonstrated current competence with evidence of at least 15 POCUS procedures within the past 36 months that are reflective of the scope of privileges requested.		
Privilege		Newly Requested	Currently Held
Diagnostic ultrasound			
Ultrasound for surgical/procedural guidance			

Administration of Chemotherapy and Biotherapy

Qualifications

Education & Training:	Successful completion of an approved residency in a specialty or subspecialty that included training in the administration of chemotherapy/biotherapy.		
New Privilege:	Applicant must complete the Mount Sinai Chemotherapy and Biotherapy Safety Course through PEAK on the Mount Sinai intranet within 12 months of initial credentialing; OR Completion of an equivalent course approved by the Medical Executive Committee within 12 months of initial credentialing.		
Renewal of Privilege:	Course completion within 12 months of recredentialing.		
Privilege	Newly Requested	Currently Held	Granted / Renewed
Administration of Chemotherapy and Biotherapy			

Acknowledgment of Practitioner

I have requested only those privileges which by education, training, current experience, and demonstrated performance I am qualified to perform, and for which I wish to exercise at this center. I further understand that:

- A. Privileges requested may differ from those granted and approved;
- B. Completion of this form, at the present time, does not preclude me from requesting additional privileges in the future;
- C. The granting of clinical privileges will be made in conformance with the applicable Medical Staff Bylaws and Policies and Procedures;
- D. Failure to obtain and maintain all threshold criteria set forth above, or non-compliance with the applicable Medical Staff Bylaws or Policies or Procedures, may constitute grounds for non-renewal or restriction/limitation of clinical privileges.

Practitioner's Signature

Date

Medical Director Declaration

The practitioner's request for new, modified, or renewed clinical privileges has been reviewed by the Center's Medical Director or an appropriate member of the Medical Executive Committee and presented to the Governing Board for approval. Privileges that have received a checkmark in the designated column have been granted. Any privileges that were requested but not granted are listed below, along with an explanation for each determination.

Medical Director: Michael A. Gorin, M.D.
